

## Space Sensor Guard

### Features

- Robust construction
- Easy fixing

### Specification

Material	Powered coated mid steel
Dimensions	See page 2
Fixing centres	4 x 4.2 mm $\varnothing$ on centres 112mm (W) x 84mm (D)

### Product Codes

<b>TT-GD</b>	Sensor guard
--------------	--------------

## Technical Overview

The TT-GD guard is designed to protect the TT-915 and TT-911 range of sensors.

A typical installation would be a sports hall where a TT-915 would be used to measure the radiant heat, and the guard would protect the sensor from being damage accidentally.
